

Dana T.

Scientist

July 2017 - Works at: IBM in Yorktown Heights, NY

General Field of Work

Chemistry, Electrochemistry

Undergraduate Education

University of Bucharest for Chemistry

Minor: No reply

Undergraduate Non-Academic Interests: No reply

Graduate Education

Case Western Reserve University for PhD Electrochemistry

Professional Societies or Organizations

The Electrochemical Society

What high school academic interests led to your college & career path?

Chemistry Olympiad

Please briefly describe your path to your current job

18 years in energy technology industry

What are a few things that you like best about your job?

Working for a company, and in a field at the cutting edge of technology (biomedical, computing).
Being part of a large group of scientists and engineers pushing the boundaries of science.
Doing something interesting every day!

What are the most important technical skills needed in your job?

Chemistry, Math, Physics, Electronics.

What are the most important non-technical skills needed in your job?

Imagination, curiosity, perseverance, being a team player.

What are some of the most challenging aspects of your job?

Pressure to solve technical challenges in a short time.

Any advice for students about to begin their college career in September?

Being a scientist is one of the best jobs in the world!
